

Clean Energy Committee

March 25, 2021

The only CEC Update is that we are participating in an Earth Day event (22 April, 11:30-12:00) at the Ridgway Secondary School. All are invited. There will be a ribbon cutting - 2 new EV chargers for students/kids in the RSS parking lot - and SMPA will donate their converted EV bug to the RSS.

The CEC is recruiting EV drivers and coordinating the EV parade immediately prior and EV owners will remain from 12-1 for general discussion and car Q&A....

P.S. If you happen to know anyone on Log Hill with an EV (aside from Jane Nash and Dickson Pratt), I would appreciate your sending me their name and contact info!
