

## BLUE LAKES CAMPAIGN REPORT:

The Forest Service is in the beginning phases of working on a NEPA document for visitor use management within the Blue Lakes area. At this point in time they do not have a timeline but "understand the importance and are doing our best to complete this in a timely manner but also make sure we provide a quality plan for the area." They will notify us when they have a concrete plan. Then our committee will decide how we will contribute.

Erica Tucker will be the San Juan Mt Assoc rep again this year and plans to set up a Greeting Tent at the Trailhead.

PLC focus possibilities for 2022:

- Tree cutting
- cattle grazing
- CORE ACT
- GMUG
- Road Access
- What else?
