

## ROCC Social Justice Committee Meeting December 8, 2023

The ROCC social justice committee worked on the mental health issue.

We came together with Voyager and Communities that Care to create a program on mental health.

The program happened on October 19 and was a success. Approx. 50 people attended. The flyer said "let's talk about it" A community conversation , mental health matters. From that conversation we are working on step two with Voyager which will be a continuation of the information we gathered and the possible showing of a movie on the subject matter.

On Dec. 19 a showing of the movie Paradise Paradox will happen. It will be a potluck and there will be a Q & A after.
